# PRINCE2®

## Foundation and Practitioner

**Practiced worldwide, PRINCE2® (Projects In Controlled Environments) is a process-based approach for project management providing an easily tailored and scalable method for the management of all types of projects.**

PRINCE2® is a flexible method that guides you through the essentials for running a successful project regardless of project type, scale or industry.

The qualification is aimed at Project Managers and aspiring Project Managers, as well as other key staff involved in the design, development and delivery of projects. The certification will provide you with the knowledge and understanding of the scope, content and structure of the PRINCE2® method.

A ByteSize introduction to **PRINCE2®**

training

“

*Training ByteSize is exactly what I needed to start studying again. Being able to log in anyway with an internet connection to study was a great benefit, I was able to do this most lunch breaks which helps hugely when you have a very busy family life. I liked the way the course was split into sections with exam style questions at the end of each one.*

*Any communication I had with Training ByteSize was always answered quickly and always answered the questions I had.*

*Once I bring myself down from cloud nine I will consider doing the PRINCE2 Practitioner course next. Well done Training ByteSize!*

**Heather Patey**
